About Capsa Solutions

Capsa Solutions may be a new name to you, but the company offers your healthcare organization a rich heritage of innovative product development and superior customer support. Through the acquisition of Artromick, MMI Med Carts, and IRSG Healthcare Storage, Capsa Solutions provides a deep product offering built to optimize clinical efficiency, storage organization, and patient care support. The innovative line of mobile computing carts from Capsa Solutions represents over 10 years of advanced development in computer cart evolution. Today, this expertise is being applied to the new LX line of laptop carts from Capsa Solutions.

LX Features

- Capsa LX Computing Carts provide your choice of fully-powered or non-powered cart platforms to mobilize your chosen laptop brand, including popular models from Dell, HP, Panasonic, Lenovo, and others
- Accommodates widescreen laptops featuring 17" LCD monitors
- Ergonomic adjustability is simple with a host of design features including tilting keyboard and Capsa's LiftAssist™ height adjustment
- All models feature antimicrobial surfaces to support your infection control program
- Small footprint and slim profile ensure simple maneuvering throughout the facility
- Single-wheel casters promote smooth travel with each model including (1) locking and (1) tracking caster standard
- Flexibility to configure workstations with storage drawers including 3" or 6" depths
- Choose from drawer security options including basic key access or keyless PIN with auto-relock
- Optional CartWatch™ Remote Management software can support cart fleet security management from a single PC location
- Capsa's robust PowerWatch™ software provides a real-time view into the power system health of your mobile computer carts
- 24/7 Customer and Technical Service provide clinical and IT teams the support they deserve
