

COMFI-FLEX MATTRESS

Manufactured by Sanbonani as our clients needed a more pliable, comfortable and softer mattress

Specifications:

For use on all Hospital beds and cots

Ideal for bed-ridden, frail or long-term patients

Foam core: 100mm 33 density soft foam

Top layer: 50mm memory foam

Dimensions: Manufactured to clients specifications

Patient weight limit : 250kg

THE BUILT-IN "MEMORY FACTOR" PREVENTS BOTTOMING OUT & THE FOAM MOVES WITH THE PATIENT'S SKIN AND NOT AGAINST IT. THE "MEMORY FACTOR" MAKES THIS MATTRESS EXTREMELY DURABLE

Memory /Visco-elastic foam properties:

Conforms to the body's shape

Reduces pressure points

CARTEX MATTRESS COVER

Designed to reduce pressure and shear on the patient

Our mattresses are protected by a polyurethane cartex cover

Composition: 57% polyurethane – 43% polyester Trevira

Fire standards: M1 classification (fire and smoke retardant)

Maintenance: Cleaning: dry cortex with a soft duster soaked in water containing a neutral detergent

Washing: Machine washable up to 90°C

Drying: in machine up to 90°C
