The advantage of the mask design:

- Comfortable
- Cupped shape to fit snug on the face sealing over nose and mouth
- The cupped shape allows for a bigger volume directly in front of the nose and mouth which also assist in increasing the ease of breathing
- Materials used has a low resistance pressure making breathing easy
- Two elastic bands around the head to ensure mask stays in position
- Minimum strain on face
- Can be worn for extended periods of time without any discomfort
- Minimum internal leakage
- Cupped form ensure that the mask seals properly on the face with minimum leakage
- Low pressure resistance
- Very good filtration
- Two cotton layers
- Inner 80gsm filter material used has a typical filtration of better than 5 microns
