WRIST				
 	1	Aero-Tech Neoprene Wrist Splint Fits up to 24cm (Measure around the centre of the wrist) Support level 6 Size: Universal Size (One size fits most) (KED027). For support, compression and to retain heat around the wrist. Intended uses can include but are not limited to repetitive strain injury (RSI), sprains and instability, carpal tunnel syndrome, tendonitis and tenosynovitis. The Kedley Aero-Tech Neoprene Wrist Splint Support was specially created to fit both the left and right hand. The malleable metal splint allows the brace to take shape to your specific needs, whilst ensuring rigid support. Instructions for use 1. Slide hand through support, ensure splint is on the side of your palm. 2. Insert thumb through the correct hole and attach the middle strap. 3. Attach top and bottom straps. Re-adjust as required for compression level. 4. Check the support fits tightly but does not restrict circulation.	R185.00	R 185.00
		Premium Neoprene Wrist Brace Intended Use: This device is designed to provide support to stiff, weak or injured muscles and joints. Gentle compression of the affected area and retention of the body heat can help to reduce swelling and prevent further injury. Features: Firm support to promote the treatment and prevention of injured or weakened muscles and joints. Soft touch inner lining for all day comfort. Fits left and right wrist. 2 Removable metal splints secure the wrist. Adjustable wrist compression strap. 3D shape provides compression helping to reduce swelling. Lightweight and durable. MATERIAL: 45% neoprene; 35% nylon; 10% polyester, 10% aluminium(splint)

Cohesive Tape - Black				
 <p>mx™ Cohesive Tape is an adhesive free, non woven tape that is ideal for providing support to muscles and joints. It is also recommended for securing dressings over wounds, as well as general compression. It is highly flexible and comfortable to wear. The tape adheres to itself as it is bandaged around a joint, so no clips or pins are necessary. Since it contains no adhesive, removing the tape is easy and pain free.</p> <p>Adhesive Free Elastic Bandage Tear able by hand Easy Application and Pain Free Removal Non Woven Fabric: Latex Free and Hypoallergenic Secure Dressings and Tape Joints</p>				
MX-CT2.5	1	2.5cm x 4.5m	R34.50	R 34.50

Kinesiology Tape				
 <p>Suitable For A Variety Of Body Parts</p> <p>KEDLEY Kinesiology Tape is designed to mirror the human skin, for comfort and effective use. The tape, through its elastic qualities and when correctly applied, can help with the alignment of weak muscles and joints.</p> <p>Instructions for use: The tape can be trimmed to suit a variety of body parts.</p>				
KED035 (4/3/2/1)	1	Kedley Kinesiology Tape, Roll dimensions: 5 cm x 5 m <i>Red, Green, Black, Blue, Pink</i>	R134.55	R 134.55
KED057 (8/9)	1	Kedley Kinesiology Tape, Roll dimensions: 7.5 cm x 5 m <i>Blue, Black, Pink</i>	R134.55	R 134.55
Dynamic Tape				
<p>Dynamic Tape is available in two colours: beige with beige tattoo and beige with black tattoo. It stretches much further and does not have a rigid endpoint like kinesiology tapes. This design and the unique, visco-elastic properties allow it to work like a bungee cord by acting on the levers of the body aiming to provide a deceleration force, absorb load, and reduce the work on injured tissues</p>

<div>  <p>Rigid Strapping Tape 5cm x 13.7m</p> <p>mx™ Rigid Strapping Tape is an adhesive rayon tape intended to support joints that are either already injured or prone to injury. The strength and rigidity of the tape makes it ideal for sports people who partake in strenuous or high impact exercise as well as sports in which joints are exposed to high stress. Once applied correctly, the tape helps to minimise movement of the joints, ligaments and tendons, thus preventing further injury. Suitable to tape knees, ankles, shoulders, elbows, wrists, and fingers.</p> <p>Ultra Strong, Rigid Adhesive Bandage Stabilises and Protects Joints Prevents Joint Injury During High Impact Sports Latex Free, Hypoallergenic</p> </div>

<div>  <p>Anchor-Fix™ Underwrap Tape NC22001-2</p> <p>Versatile underwrap provides gentle protection.</p> <p>Anchor-Fix™ Underwrap Tape is a non-woven, hypoallergenic, white fabric underwrap that is used under rigid strapping tapes where the tape must stay in position under extreme stress and/or sweat. Use in conjunction with Anchor™ Rigid Strapping Tape for knee or shoulder taping techniques. The latex-free, acrylic adhesive in Anchor-Fix™ is better tolerated by the skin and helps to alleviate skin trauma when regularly taping is done with Anchor™ Rigid Strapping Tape. Also used to adhere bandages or gauze against the skin. Used by athletes as a skin protector to prevent "turf-burns." Rolls are 10m long.</p> </div>

	1	Tensospray® Adhesive Protector Tensospray is a convenient clear spray which leaves a thin protective film over the surface of the skin. This provides an ideal layer for adhesive bandages and tapes, promoting excellent adhesive traction and reducing skin trauma on removal. Designed for use before the application of pre-wrap, tape or elastic adhesive bandages. Size: 300ml	R474.38	R 474.38
	1	Leukotape® Remover Leukotape Remover helps remove adhesive tapes and elastic adhesive bandages. It also prevents any adhesive residue which may be left on the skin. The remover is applied to soak the taping and breakdown the adhesive allowing easy removal from the skin. Eliminates the trauma normally associated with the removal of adhesive coated tapes and bandages. Size: 350ml	R414.00	R 414.00
